INTRODUCTION
Between January and June 2016, St. Joseph’s Hospital, Inc. and Candler Hospital, Inc. jointly worked together as St. Joseph’s/Candler (SJ/C) to identify the health and social determinants of health needs in Chatham County. The hospitals once again partnered with Memorial Health during the process. The three hospitals worked with the Coastal Georgia Indicators Coalition, Chatham County Safety Net Planning Council, J.C. Lewis Primary Health Centers and SJ/C’s Good Samaritan Clinic to collect primary and second data on health and social needs in at risk populations and throughout the broader community. The findings were published in the joint report filed in June 2016. The entire report can be found on the St. Joseph’s/Candler website under the section, “In the Community.”

METHODS OF DETERMINING NEEDS
Using the findings of health and social needs identified through the Healthy Communities Institute data base and the Community Health Needs Assessment Survey, SJ/C and collaborating partner, Memorial Health, met with key collaborators to evaluate findings and prioritize the needs that were identified. These key collaborators have members who represent the underserved and vulnerable populations of Chatham County. Their input was invaluable in finalizing the findings of the Community Health Needs Assessment.

The same process of determining significant community needs in 2013 was used again in 2016. A decision tree was used to determine if an indicator was or was not a community need. There were four determination types:

1. Secondary Data – Is the Chatham County indicator red or yellow? If yes, the indicator is a community need.
2. Secondary Data – Is the Chatham County value meeting the Healthy People 2020 target? If not, the indicator is a community need.
3. Primary Data – Did survey respondents identify additional needs? If so, they are a community need.
4. Primary Data – Did the Community input process identify addition needs? If so, they are a community need.

They were color coded green, yellow and red to match the corresponding quartile of each indicator. The final list of needs was then evaluated to see which needs SJ/C has the ability to either individually or collaboratively address. The needs not addressed by SJ/C, which include explanation why they are not being addressed can be found at the end of this document. In addition to the needs identified in the CHNA, SJ/C may choose to address additional needs brought to the hospital’s attention by community organizations, agencies, religious bodies and others serving the health and social needs of the community.
NEEDS IDENTIFIED WHICH ST. JOSEPH’S/CANDLER WILL ADDRESS

**Status Report**

In FY 17, SJ/C opted to fully launch Hepatitis C cure program in addition to working on the identified targets/metrics in this section. Hepatitis C program’s goal will be to cure another 18 people in FY 18. Indicator is colored yellow to notate no progress has been made on original goals, but...

**FY17 Outcomes**
Hepatitis C Cure Program: 34 patients, 18 “cured”, 4 in progress, 12 in beginning stages of starting program (quitting drinking, smoking, abstaining from unprotected sex and eating)
Hepatitis C program has priority as SJ/C had opportunity to work on this important health issue within the vulnerable population in collaboration with MedBank, Inc. who may not be able to provide drugs beyond FY 18. Each patient's medication cost is $300,000 for a three month treatment and is being provided at no cost to the patient. The significant advantages of using MedBank program while available outweighed the original goals in this section.
### CANCER SPECIFIC CARE INDICATORS

**NEED IDENTIFIED:** Age Adjusted Death Rate Due to Colorectal Cancer

**Objective:** Continue to contribute to interventions that support a decrease in age adjusted death rate due to colon and rectal cancer at the Good Samaritan Clinic and St. Mary’s Health Center.

<table>

St. Joseph’s and Candler Hospitals
2016 Joint Implementation Plans – FY 17 Progress Report

NEEDS IDENTIFIED WHICH ST. JOSEPH’S/CANDLER WILL NOT ADDRESS DIRECTLY
St. Joseph’s/Candler provides many community benefit and community building programs that address the health and social determinants of health throughout Chatham County and the surrounding communities. Chatham County is fortunate to have a large number of health and social service agencies who work individually and collectively to provide services, programs and support for the county residents. To that end, St. Joseph’s/Candler will not address some of the needs identified in the 2016 assessment because: (1) SJ/C addresses the need, but currently has no plans to expand services, (2) Other providers are already addressing the needs and (3) The need identified is beyond the scope of SJ/C. Despite the Systems decision not to directly address the need, SJ/C will periodically re-evaluate the needs not being addressed to determine if in-kind contributions or other support can be provided to organizations addressing the need. Additionally, SJ/C will continue to participate on community organization/agency board and collaborations which are addressing the need or, if not currently participating, may seek opportunities to participate and provide general assistance as needed, such as participating in a health fair, workshop, education session or other venue sponsored by a group addressing the need.

KEY COLLABORATIVES IN CHATHAM COUNTY

**United Way of the Coastal Empire**
www.uwce.org
The mission of United Way of the Coastal Empire (UWCE) is to improve lives by mobilizing the caring power of communities. Through partnerships, long-term planning and wise investment of donor contributions, United Way supports community programs and services within four impact areas.

**Four Impact Areas**
- Education & Youth Development
- Economic Independence
- Health & Wellness
- Basic Human Needs

**Savannah-Chatham Community Indicators Coalition**
http://www.uwce.org/our-work/community-indicators/
Over the past few years there has been a growing awareness of the need to integrate community indicators and performance measurement efforts at the community level. The intention is to better assess the position and progress of communities’ quality of life and to better engage the communities’ citizens and stakeholders. The sponsors of the Savannah-Chatham Community Indicators Coalition have a shared responsibility for assessment, planning, evaluation, and accountability for policy change and systems change over time.

**Chatham County Safety Net Planning Council (CCSNPC)**
www.chathamsafetynet.org
The CCSNPC serves as a countywide planning group for healthcare. It was created in 2004 to improve the efficiency and effectiveness of the local healthcare delivery system, to advise regarding healthcare trends, and to assist the County Commissioners in better meeting the healthcare needs of uninsured and underinsured constituents. Since 2006, the Council has provided an annual evaluation to assess needs and trends and to identify key existing resources and gaps in the Community’s healthcare delivery system. This evaluation is based on voluntary submission of data from the provider partners and publicly available data on population and policies affecting healthcare.

The CCSNPC Provider Network is composed of both primary care providers and other agencies which support the delivery of healthcare.

Key CCSNPC Health Care Providers
- Chatham C.A.R.E. Center – Chatham County Health Department Ryan White Clinic
- Curtis V. Cooper Primary Healthcare (CVCPhC) – Federally Qualified Health Center
- J.C. Lewis Primary Healthcare Center (JCLPHCC) – Federally Qualified Health Center
St. Joseph’s and Candler Hospitals
2016 Joint Implementation Plans – FY 17 Progress Report

- MedBank Foundation – Prescription Assistance Program
- SJ/C Good Samaritan (GS) – Volunteer Medicine Clinic
- SJ/C St. Mary’s Health Center (SM) – Volunteer Medicine Clinic
- Memorial health Emergency Department
- St. Joseph’s/Candler Health System Emergency Departments

Healthy Savannah, Inc.
www.healthysavannah.org
Healthy Savannah is dedicated to making Savannah a healthier place to live. Healthy Savannah leads and supports healthy lifestyles in Savannah by:
- Creating an environment that makes a healthy choice an easy choice,
- Building a collaborative network that identifies and shares resources,
- Collecting and disseminating information,
- Promoting best practices and implementing innovative programs, and
- Advocating for effective policies.

Step-Up Savannah, Inc.
www.stepupsavannah.org
Step Up Savannah, Inc., a collaborative of organizations, businesses, and government agencies, seeks to move families toward economic self sufficiency.

Three Focus Areas
- Workforce development and jobs
- Wealth building and financial understanding
- Work supports

Chatham-Savannah Youth Futures Authority (YFA)
www.youthfutures.com
The Chatham-Savannah Youth Futures Authority (YFA) is a state legislated authority serving as the collaborative for addressing issues relevant to children, youth and families in Chatham County. The collaborative is comprised of representatives from city, county and state government, the local board of education, more than 20 health and human service providers with a focus on children, youth and families, the United Way of the Coastal Empire, faith community, area businesses, and neighborhoods.
